

Case History

Graffiti removed for Pizza Hut

A Pizza Hut restaurant in Cardiff had the exterior of their building badly damaged by graffiti, we were contacted by the client and asked to remove the graffiti which other companies had been unable to do.

The graffiti 'attack' affected timber panelling to the side of the Building. Test cleans established that the paint would come off and we were able to return and carry out a full removal of both the graffiti and the 'ghosting' to ensure full restoration of the timbers.
